Release Notes

This document contains information about **V 4.2.10**, including bug fixes and new features in this release.

NEW FEATURES

ALPO-3488   **BHT/ZAPP module: Scroll bar for dangerous goods information**
A bug has been fixed where the scroll bar was sometimes not visible in the dangerous goods information.

ALPO-3565   **BHT module: Note on the abolition of ASumA client mode**
A note has been added to the ASumA client mode entry screen informing users about the upcoming abolition of the ASumA client mode. With the introduction of ATLAS-WKS, it will only be possible to use the ASumA-BHT mode.

BUXFIXES

ALPO-1192   **BHT module: Explosives certificate Mandatory field for explosive substances**
A bug was fixed where the "Explosives certificate" field was not reliably marked as a mandatory field.

ALPO-3352   **Deletion of incorrect Portbase orders**
Portbase orders which received an error reply, without previously receiving status "ACK" can now be deleted in ALPO.
