

Release Notes

This document contains information about **V 4.2.16**, including bug fixes and new features in this release.

NEW FEATURES

ALPO-3752 BHT module: Check for shed code and POL

A check has been implemented to ensure that the specified shed code matches the specified POL, with a few exceptions. The aim is to avoid incorrect entries due to ambiguous SIS numbers.

ALPO-3814 BHT module: "Edit voyage" now takes over department from existing port order

If no department is stored as default for the user who wants to use the "Edit voyage" option for a BHT order, the department from the existing port order is now adopted as a fallback. This means that the "Edit Voyage" option can now be used again in these cases.

BUXFIXES

ALPO-3813 BHT module: Logic adjustment fpr AES fast entry

Logic adjustments have been made when creating multiple AES items using the fast entry.
